In a Report:

PF1 + T Top of Report

PF1 + B Bottom of Report

Home Search within a report (if searching for a dollar amount, you must use numbers above alphabet keys)

USASWEB replaces the APE and PORQ program. You can create, modify, and query requisitions, POs, invoices, checks, etc. in this program.

USASDW is a data warehouse program that can work like EIEIO, but you will still have access to the EIEIO program in State Software.
