

PowerTerm Keyboard Definitions

Key Definitions:

- Hold = F1
 - Print = F2
 - Setup = F3
 - Dial = F4
 - Break = F5
-

While setting up and running most reports in PowerTerm, options can be found in the menu shown at the bottom of the screen:

- PF1 Execute
- Enter Execute
- F6 Top/Beginning
- F7 Help
- F8 Exit
- F9 Cancel
- F10 Next or Reset depending on program
- F11 Find or Save and Recall depending on the program
- F13 Delete (control + F3)
- F14 Modify (control + F4)
- S7 Prev Screen (Shift + F7) (Page up also works here within a report)
- S8 Next Screen (Shift + F8) (Page down also works here within a report)

While viewing a report in the PTR:

- PF1 + T Top of Report
- PF1 + B Bottom of Report
- Home Search within a report (if searching for a dollar amount, you must use numbers above alphabet keys)
- F10 Exit out of report view
